

About Space-Careers

Space-Careers is a specialist niche jobsite designed to assist recruiters find top-level space-industry professionals both within Europe and globally.

Space-Careers attracts thousands of candidates every week with skills ranging from engineering and research to business services, all with experience and interest in the space industry. Most of these candidates are educated to degree level and are highly mobile, the vast majority speak English plus often several other languages.

Space-Careers has now become the world's largest source for the industry with more jobs available in this sector than any other jobsite.

- 40'000 monthly sessions
- 200'000 monthly page views
- 20'000 unique visitors
- Around 12'000 individual Job Alerts sent each week
- Over 15'500 Social Media followers
- Multilingual, Geographically mobile professional candidates

Data is updated January 2026, for latest statistics see the [Space-Careers Recruiter page](#).

Some of our Clients

Testimonials

"We are extremely satisfied with our experience using Space-Careers. The platform operates seamlessly, and we especially appreciate the team's quick responsiveness. Whenever we needed support, the staff was readily available. Our job postings were always published promptly and efficiently. We highly recommend the platform to any company in the space industry!"
Ana Glavas, HR - Talent Acquisition, Peak Technology

"I'm very satisfied with the outcome of our 'Spacecraft Controller' posting so far. We had a lot of applicants through Space-Careers, so the data mirrors our own impression."
Christian Maruszyk, HR Business Partner - Recruitment, Telespazio Germany

"We received quite a lot of CVs in response to our advertisement and some of them arrived via your website, as it was mentioned in the candidates' cover letters. Regarding your website, it is a very attractive and easy to use site to search for jobs."
Marielle Snellings, Atmospheric Composition, Belgian Institute for Space Aeronomy (BIRA-IASB)
